

## Double Contribution - Haifa University

Cooperation between the University and "Ecology community protected Ltd. helps to protect the environment, and community assistance to people with special needs."

Protecting the environment and help the community are two flags we Mnifim as part of the campus green to Hucsrno. This activity is the opening shot in the framework of our activities, "noted Vice President of the University of Management, Baruch Mrzn.

As part of the collaboration at the University of Haifa collect the electronic equipment moving him to reject the

"community protected Kology Ltd", he goes from there employer associations of people with special needs, as part of their rehabilitation process. Individuals with special needs learn how to disassemble the equipment to recycle the various components .

According to people in an organization "Community Ecology protected Ltd., deal experience as part of a project cycle improves the image of the self-employed.

"University is proud to join the guard project on the environment, raises the importance of period ads and strengthening of the employed population with special needs. We are these days centers on the placement goals in all aspects of cycle in order for us to be 'green campus'

practice and not just a certificate on the wall," noted Vice President of Management.

Haifa University was declared end green "by the Ministry environment protection last year. As part of its obligations opened university academic course open to all students and about the environment and adopts the oath to the Caramel River.
